DETAILED ACTION

Response to Amendment

The rejection of claims 1-26 under 35 USC § 112 is withdrawn by the examiner in view of the amendment filed on April 4, 2003.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-26 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of U.S. Patent No. 5,911,874 in view of Sequeira (5,039,399).

The U.S. Patent claimed process is drawn to a process for producing a lubricating oil which is similar to the present claimed process. The claimed process of the U.S. Patent does not disclose a water content in the solvent ranging from 3 to 10 vol. %. However, the Sequeira reference discloses a process for removing aromatics from a lubricating oil by using a solvent which comprises 3 to 10 vol. % of water (see col. 5, lines 9-30). Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to have

modified the claimed process of the U.S. Patent by using the Sequeira solvent because the solvent is effective for removing aromatics from a lubricating oil feed.

Claims 1-26 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-16 of U.S. Patent No. 5,976,353 in view of Sequeira (5,039,399).

The U.S. Patent claimed process is drawn to a process for producing a lubricating oil which is similar to the present claimed process. The claimed process of the U.S. Patent does not disclose a water content in the solvent ranging from 3 to 10 vol. %. However, the Sequeira reference discloses a process for removing aromatics from a lubricating oil by using a solvent which comprises 3 to 10 vol. % of water (see col. 5, lines 9-30). Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the claimed process of the U.S. Patent by using the Sequeira solvent because the solvent is effective for removing aromatics from a lubricating oil feed.

Response to Arguments

The argument that the double patenting rejections are invalid because the U.S Patent No. 5,039,399 (Sequeira) does not share inventorship or ownership with the instant application is noted. However, the argument is not persuasive because the Sequeira reference is a secondary reference which does not need to share inventorship or ownership with the instant application. Therefore, the rejections are maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
